Independent Bankers Association of Texas Honors IntraFi with Five*Star Award

AUSTIN, Texas—IntraFi has been honored with the Independent Bankers Association of Texas (IBAT) Five*Star Award. The financial technology company received the award June 26 during the 41st Annual Connecting Leaders Conference in Round Rock, the flagship event of the IBAT Leadership Division.

Since 2002, IBAT's Five*Star Award has recognized associate members that consistently provide exceptional service and innovative solutions to help community banks grow, improve profitability and operate more efficiently. To be considered for the award, associate members must demonstrate a strong commitment to Texas community banks through active participation in IBAT and other industry events. IBAT member banks then vote to determine the winner in each of three tiers based on company size. Winners are selected based on service excellence, relationships, integrity, commitment to the community banking industry and the exceptional value they provide to community banks.

Trusted by more than 3,000 financial institutions, IntraFi is the nation's leading provider of reciprocal deposit solutions. Established over 20 years ago, the company's network connects institutions of all sizes, enabling participants to strengthen customer relationships, increase lending capacity and efficiently manage liquidity. IntraFi's services offer access to tens of billions of dollars in funding, the industry's highest per-depositor and per-bank capacity and the confidence to execute large-dollar placements with ease and security.

"It is with great enthusiasm that we recognize IntraFi for its commitment to serving Texas community banks through its continued support of IBAT," said Christopher Williston, IBAT President and Chief Executive Officer. "As the community banking landscape continues to evolve, it is essential that banks can rely on trusted partners like IntraFi to deliver innovative solutions and exceptional client service, allowing them to remain competitive while continuing to meet the needs of their customers."
